

## PROFILE

Motivated, ambitious, adaptable and technically skilled Information Technology undergraduate with a enormous passion for full stack web development and digital problem solving. Proficient in building responsive websites and applications using modern technologies including JavaScript, React and Python.

Known for a strong work ethic, a fast-learning curve and a proactive approach to projects whether collaborating on university assignments or leading customer service roles. I bring communication, reliability and technical know-how to every task. I am currently seeing entry level opportunities in software development, web engineering or data driven application design to grow my impact and skill in the tech industry.

## TECHNICAL SKILLS

- Languages & Frameworks: C++, Python, JavaScript, HTML, CSS, React
- Database Tools: SQL, PhpMyAdmin
- CMS & Platforms: Drupal
- Developments Tools & IDEs: Visual Studio Code & Visual Studio 2017
- Libraries & Tools: Tableau, Microsoft 365
- Web Development: Responsive Design, interactive UIs, UX principles

## PERSONAL SKILLS

- Communication: Effectively conveyed complex information to diverse audiences during university presentations and team projects.
- Timely disciplined: Balanced academic responsibilities with part time employment consistently meeting project deadlines and work commitments.
- Problem Solving: Identified and resolved coding challenges during the development of a password manager GUI, enhancing application security.
- Adaptability: Quickly learned and applied new technologies such as React and Drupal to meet project requirements.
- Teamwork: Collaborated with cross functional teams to develop web applications ensuring seamless integration of front end and back-end components.

# EDUCATION

BSc (Hons) Information Technology (2022-2025)  
London South Bank University, London UK  
Expected Grade: 2:1

## Relevant Modules:

- Analysis & Design: Developed skills in analysing complex systems and designing efficient solutions
- Software Development: Gained Proficiency in various programming languages and software engineering principles
- Web Technology & Developing Applications: Learned to build dynamic and responsive web applications using modern Technologies

## Key projects:

### **Password Manager GUI**

- Implemented robust password validation logic in C to enforce strong password standards, ensuring protection against common attacks.
- Developed functions to accurately count word lengths and vowels within text input, providing valuable insights for text processing tasks.
- Translated designs into concise and efficient C code, demonstrating a strong understanding of programming logic and syntax.

### **Interactive Website**

- Demonstrated proficiency in front-end and back-end development using HTML, CSS, JavaScript & PhpMyAdmin.
- Ensured responsiveness for seamless navigation across various devices.
- Implemented interactive features and animations to enhance user experience.

### **User-Friendly AMI Database**

- Developed a Python-based application with a well-structured database to manage investigation data efficiently.
- Analysed real-world data and presented key findings to senior tutors and stakeholders.
- Enhanced user experience with both textual and graphical interfaces, catering to diverse user preferences.

# WORK EXPERIENCE

### **Home Delivery Driver**

Sainsbury's, London  
July 2024 – Present

- Consistently delivering groceries on time, demonstrating strong time management and route optimization skills.
- Providing exceptional customer service, resolving inquiries promptly to ensure customer satisfaction.
- Managing delivery schedules effectively, showcasing adaptability in a fast-paced environment.

### **Crew Trainer**

McDonald's, London  
August 2021 – October 2022; June 2023 – July 2024

- Promoted to Crew Trainer within three months, recognizing leadership and training capabilities.
- Led onboarding sessions for new staff, improving team efficiency and cohesion.
- Achieved 'Employee of the Month' for three consecutive months, reflecting dedication and performance excellence.

### **Sales Associate**

*IKEA, London*

*November 2022 – March 2023*

- Enhanced department sales by effectively promoting products and engaging customers.
- Implemented sustainable practices in daily operations, aligning with company environmental goals.
- Collaborated with team members to optimize store layout, improving customer navigation and experience.

## **PROFESSIONAL MEMBERSHIP**

- CSI (Computer Science and Informatics) - LSBU

## **LANGUAGES**

- English

## **ADDITIONAL TRAINING**

- **Agile Methodology Job Simulation – Cognizant (Forage)**  
Completed a self-paced, 3–4-hour virtual program simulating real-world Agile project management scenarios. Gained practical experience in sprint planning, stakeholder communication, and iterative development processes.
- **Web Design Fundamentals**  
Completed an introductory course covering the basics of web design, including HTML, CSS, and responsive design principles. Developed foundational skills in creating user-friendly and accessible web interfaces.
- **HTML Attributes and Tags**  
Engaged in a 3-hour beginner-level course focusing on the structure and usage of HTML tags and attributes. Enhanced understanding of web page structuring and semantic HTML.
- **Python Bootcamp**  
Currently enrolled in a comprehensive Python bootcamp covering topics from basic syntax to advanced concepts like object-oriented programming and data analysis. The course includes hands-on projects to build practical skills.
- **Personal Web Development Projects**  
Designed and developed two complete websites from scratch, utilizing HTML, CSS, JavaScript, and PHP. These projects demonstrate proficiency in front-end and back-end development, as well as an understanding of user experience design.
